

Complete Room Systems

Professional Room Treatment Options

PRODUCT DESCRIPTION

Auralex Complete Room Systems provide the most popular product and style options in a single easy to implement package. These systems include everything you will need to improve sound quality and enhance a speaker system's performance in any small room. From bass trapping and diffusion to adhesives and mounting clips, there are no additional components needed or extras that must be purchased. Even if the budget is tight, Auralex still has options available. Complete details on each systems follow on the next few pages.

BENEFITS

- Improves the performance of existing and newly implemented audio equipment
- Multiple size and price options to meet the needs of different rooms and budgets
- Wide variety of finishes, styles and colors provide a multitude of decorative options
- Creates both an aesthetic and accurate environment for many different applications
