

## 2" Studiofoam® Wedge

### Anechoic Wedge-Cut Acoustical Panels

**Benefits:**

- Anechoic wedge cut offers superior sound absorption
- Effectively reduce standing waves and flutter echoes
- Consistency of cut minimizes visible seams
- Absorbs up to 60% better than other brands that can cost several times more
- Won't crumble with age
- Class B flame retardancy
- Passes California fire code #117

**Applications:**

- Use to treat most small to medium sized areas, including Recording Studios, Broadcast Facilities, Residential Theaters, Offices or other Commercial Facilities
- Great for just about any mid to high frequency application

**Size:**

- 2' wide x 4' long x 2" thick

**Box Information:**

- (12) panels per box (covers 96 sq. ft.)
- Box size of 48.5" x 24.5" x 16"

**Installation:**

- |                                                                                                                                      |                                                                                                                                                                           |
